### **MILLER INTERMODAL LOGISTICS SERVICES, INC. RENEWS WITH THE U.S. EPA SMARTWAY® TRANSPORT PARTNERSHIP**

**Ridgeland, MS** – MILS, Inc. today announced that it has submitted and received approval for their 2018 data update with the SmartWay® Transport Partnership, an innovative collaboration between U.S. Environmental Protection Agency (EPA) and industry. The SmartWay Transport Partnership provides a framework to assess the environmental and energy efficiency of goods movement supply chains.

MILS will continue to contribute to the Partnership's savings of 170.3 million barrels of oil, \$24.9 billion in fuel costs, 72.8 MMT of carbon dioxide (CO<sub>2</sub>), 1,458,000 tons of nitrogen oxides, and 59,000 tons of particulate matter. This is the equivalent to eliminating annual energy use in over 6 million homes. Carbon dioxide is the most common greenhouse gas, and nitrogen oxide is an air pollutant that contributes to smog. By joining SmartWay Transport Partnership, MILS demonstrates its strong environmental leadership and corporate responsibility.

*"MILS, Inc. is honored to be a SmartWay Transport Partner. MILS is dedicated to ensuring our fleet is making all efforts to reduce carbon dioxide emissions and other air pollutants. We want to continue to minimize the effects we have on the environment while providing our customers with safe, topnotch logistics services,"*

*Steve Haskins, President/CEO*

Developed jointly in early 2003 by EPA and Charter Partners represented by industry stakeholders, environmental groups, American Trucking Associations, and Business for Social Responsibility, this innovative program celebrated its 10 year anniversary in 2014. Partners rely upon SmartWay tools and approaches to track and reduce emissions and fuel use from goods movement. The Partnership currently has over 3,000 Partners including shipper, logistics companies, truck, rail, barge, and multimodal carriers.

#### **About Miller Intermodal Logistics Services, Inc.**

Miller Intermodal Logistics Services, Inc. is a 3PL provider that offers our customers an array of services which include: logistics management, bulk transportation, dedicated fleets, supply chain solutions, distribution planning, inventory management, equipment leasing, container drayage, intermodal services, dedicated vans, warehousing and transloading.
