### **Petrochemical Supply Chain 2017: Miller Intermodal Logistics Services, Inc. Supports World's Largest Event for over 700 Chemical Supply Chain Professionals**

HOUSTON – December 12-13, 2017 – Miller Intermodal Logistics Services, Inc. (MILS) is pleased to announce that they are supporting the upcoming Petrochemical Supply Chain & Logistics 2017 meeting, taking place on December 12-13 in Houston, TX – the largest gathering of petrochemical supply chain leaders, globally.

Over 700 attendees from all the major petrochemical producing companies, traders, ports, shipping lines, 3PLs and distributors will descend on Houston to receive critical industry insight at the highest corporate as well as tactical level. Those taking part will challenge core concerns, drive collaboration and shape progress within our industry in the following key areas:

- **Assessing Harvey's True Impact on Houston and the Wider U.S. Supply Chain**
- **Understand the Real Implications of New Volumes & Anticipate Producer Supply Chain Needs**
- **Generating Capacity to Keep Up with Export Demand**
- **Optimizing the Domestic Supply Chain**
- **The Future Is Digital: What Does a Digital Supply Chain Mean for Petrochemicals?**

MILS is proud to be supporting the event, alongside experts such as Millissa Flanagan, Senior Vice President, Integrated Supply Chain at AkzoNobel; Rick Lissa, Senior Director, Supply Chain at Formosa Plastics; Bill Wehrle, Director, Supply Chain at BASF, and many more.
